SCIENTIFIC PRODUCTION

In collaboration with others he published more than 155 original works in extenso in international journals reviewed by the 'Current Content - Life Science'. He has also presented over 150 communications to national and international Congresses.

The research activity was devoted to the study of some aspects of the pathophysiology of endocrine glands and metabolic diseases. In particular, the scientific activity was addressed to the study of the neuroregulation of antero-pituitary secretion, and in particular of the secretion of growth hormone (GH), in physiological conditions and in patients with diabetes and obesity. In recent years the research activity has been focused on the field of thyroid diseases and endocrine hypertension.

Since 1990 he has participated in many national research projects, funded by the Ministry of University and Scientific and Technological Research (MURST) or by the National Research Council (CNR) or by the Piedmont Region.

He is a member of the Italian Society of Endocrinology, the Association of Medical Endocrinologists, the Italian Society of Arterial Hypertension and Slow Medicine.

He has collaborated, as Referee, to the magazines:

REFEREE

- Journal of Endocrinological Investigation
- European Journal of Endocrinology
- Clinical Endocrinology

From 2001 to 2006 he worked as Referee for the Endocrine-Metabolic events within the Ministerial Commission for Continuing Medical Education.

CLINICAL - ASSISTENCE ACTIVITY

Since 1992 he has been carrying out clinical-assistance activities in the Department of Hospitalization, in the Day Hospital, in the various Specialist Outpatient Clinics and in the Laboratory of Hormonology of to the University Division of Endocrinology of the A.S.O.S. Giovanni Battista of Turin, today S.C.D.U. of Endocrinology, Diabetology and Metabolism of the A.S. 'City of Health and Science' of Turin.

He was in charge until 2017, with GSU qualification, for the organization and coordination of the "Metabolism Diseases" sector of the S.C.D.U. of Endocrinology, Diabetology and Metabolism, including the sectors of Diabetology, Obesity, Thinness and Catabolic States, Calcium-Phosphoric Metabolism and Metabolic Osteopathies, Hypertension, Dyslipidemia and Vascular Complications of Metabolic Diseases.

From 15 September 2016 he is in charge as the Coordinator of the Hospitalization Ward at the S.C.D.U.

TEACHING ACTIVITY

Degree in Medicine

From 2002 is a professor of the discipline of Endocrinology and Metabolic Diseases, which is now part of the C.I. of Clinic and Pathology of Abdomen and Endocrinology.

From 2003 is a lecturer in the Medicine Course based on the Evidence of

Effectiveness

Degree course in Biomedical Laboratory Techniques

From 2003 is professor of the discipline Endocrinology: effects on the Laboratory

Degree course in Dentistry and Dental Prosthesis

From 2004 to 2018 he was professor of the discipline Endocrinology.

Postgraduate School of Endocrinology and Metabolic Diseases.

From 1993 he carries out integrative teaching activity in this School of Specialization. Since 2016 he is Vice-Director of the School.

Post-graduate School of Dietetics and Clinical Nutrition

From 2004 is the holder of the teaching of the discipline of Endocrinology

From 2014 is part of the Joint Teaching Commission (since 2015 renamed the Joint Consultative Commission and from 2017 Monitoring and Review Commission) of the Master's Degree in Medicine and Surgery. From 2015 is the Secretary of the Commission.

He was Director of the 1st level University Master in "Endocrinology, Diabetology and Metabolic Diseases" for Nurses and Pediatric Nurses promoted by the University of Turin for the 2016-2017 edition.

He was Director of the 2nd level University Master's Degree in 'Diagnostic and Interventional Ultrasound of the Neck' promoted by the University of Turin for the 2017-2018 edition.

DATE **April 11th 2019**
