

Deep Dive in Technology Transfer

Why is it difficult to export innovations from research to industry? Barriers to entry? Lack of support? This Technology Transfer course will give researchers and clinicians the tools they need to realize the industrial potential within their research. Designed specifically for the Department of Medical Sciences, it will explain the rationale behind technology transfer, provide a step-wise guide through the process, and give strategies to help elevate innovative research beyond publications.

How

Hybrid in-person (limited to 50 people) / online

Where

Ospedale Molinette

When

Five (5) workshops, each 90 minutes, starting on Nov 12

Language

English with Q&A in either English or Italian

Workshops:

- 12 NOV 2021 - 14:30-16:00 - **Introduction to Technology Transfer**
- 19 NOV 2021 - 14:30-16:00 - **Patents and Proof of Concepts**
- 26 NOV 2021 - 14:30-16:00 - **Start-up and Spin-off Creation**
